

Reviewer 1 v.2

Comments to the Author

1. The CCI may be a good maker for the patients with community-acquired pneumonia. How about availability of the CCI for aspiration pneumonia?
2. Couldn't "CCI, Charlson comorbidity index" be deleted from the supplementary explanation of Table 2.
3. Isn't " $P=0.001$ " at line 201 on page 10 exactly " $P<0.001$ " based on Table 2.
4. Please align the cells in a straight line on the horizontal axis in Table 1.
